UAS (see, I didn't call them drones) is one suggested topic because Rep. Poe is hot on it and a couple others. I drafted a quick and dirty TP on it based on yesterday's prep. Can you have your guys take a look and ensure that it's accurate. They are welcome to edit as they please. I just want to ensure it's accurate.

I realize that in all likelihood, FBI would end up answering this if it came up because DD Joyce will be at the same hearing, but we committed to providing the DAG information for his book, so I need to clear it.

Please answer by noon because we need to get the book up to the DAG's staff.

Thanks much!

Mary
